

DEVOURED ENTIRELY

Who ever could have known?
How us two would now explode!
Folding inwards-backwards-over
Tendrils of emotion – in constant motion
Feeling every surface smoothly
You make my life meaningful totally
Your - my embodiments
Brushing up against each ‘other’
I long for it continually
We are in sync beautifully

Our breath and heartbeats
Make a gorgeous chorus
More beautiful than any Chopin
(and my, my we know how that’s not easy)

this symphony of looks and longings
in fact, we will even write a book;
a real life choose your own adventure novel
with potentials infinite
and enjoyment immanent

IN the TRACE

I-you-we know we are together every minute
Even when spaces divide us;
I you know you have my attention
My love and affection

Here we are with(in) the moment
Its good you are not a hamburger
Or I would devour you

ENTIRELY ☺

Love,
xxx
